

## **Migrant Workers Group**

### **D r a f t   A i m s**

(To be discussed at meeting on 13/10/04)

The aims of the group are:

1. To ensure that the positive role played by migrant workers within the Cornish economy is not overlooked
2. To identify the barriers that exist in providing equality of service to migrant workers and developing solutions to overcome these

In pursuit of these aims, the group will:

- Raise the profile of migrant workers in the Cornish economy by making them a focus of the 'Diversity in Employment' event at Eden
- Identify the data currently gathered and ways of making best use of this data so that gaps in services can be identified and filled
- Share resources where possible to provide an enhanced service to migrant workers (eg shared interpreter services)
- Develop a 'Welcome Pack' which will outline the services available and the means of access
- Feed back to the CSP on those issues where further action at strategic / policy level may be required.
